

## KEY FEATURES

- + Travel information in real time
- + Departure information at the stop level
- + Departure information across forms of transport
- + Easy maintenance
- + Vandal proof
- + 24/7 operation

# OUTDOOR INFO MONITOR 46"

## RELIABLE TRAVEL INFORMATION

More and more passengers want better travel information about their journey, particularly if something unexpected occurs, such as a breakdown or changes in traffic.

MultiQ's digital departure, traffic and information solutions are designed to optimise the level of information from various public transport systems. They can also convey important information about upcoming or current irregularities in traffic.

Our Digital Outdoor Info Monitor displays location-specific travel information, in real-time, for bus, metro, train and subway – all the way down to the local stop level.

The Info Monitors give passengers the opportunity to get relevant traffic and travel information where it is needed. These solutions are available with or without

an information field at the bottom of the monitor. The information field can be used to show relevant traffic information, such as route changes, road work, new timetables, local news, etc.

Departure information is updated automatically and retrieved from Rejseplanen's timetable data via mobile network.

## TECHNOLOGY

The outer cabinet is made of stainless steel. The fronts are specially-designed polycarbonate, 300 times stronger than glass. The polycarbonate is coated specially on the exterior to withstand most chemicals. Any graffiti can be removed with solvent. The polycarbonate also contains an effective filter which absorbs 99.96% of the harmful UV-radiation. The built-in Media Controller is a powerful industrial PC built for 24/7 operation in harsh environments. The Info Monitor can be painted in the desired RAL colour.

**Specifications**

<b>DISPLAY</b>	
Display size	46"
Aspect ratio	9:16
Resolution	1080 × 1920
Visible area	572 mm × 1018 mm
Brightness	Max. 1500 cd/m2
Contrast ratio	4000:1
MTBF (Backlight)	50,000 hours
<b>CABINET</b>	
Outer material	Stainless steel, brushed
Corrosion class	C4M
IP class	IP53
Front	Polycarbonate, Anti-glare with UV filter
Dimensions	H × W × D: 1278 mm × 815 mm × 280 mm
<b>MEDIA PLAYER</b>	
Type	Industrial type for Transportation applications
Operating system	Windows Embedded Standard 7
CPU	AMD G-T56N Dual Core 1.65GHz
Memory	2G DRAM DDR3
Hard drive	SATA, 160 GB, 8M buffer, 24/7 operation
Network	LAN / MOBILE NETWORK
<b>OPTIONS</b>	
Internal speakers	Yes
Volume control	Yes, automatic adjustment
WiFi access point	Yes
Painted cabinet	Yes, in desired RAL color
<b>MISCELLANEOUS</b>	
Warranty	24 months
Power consumption	Average <200 W max, 800 W (startup)
Weight	> 120 kg.
